Barracuda 10k is not only the most potent concrete stripper in the world, it is also the safest. Independent tests confirm that CTI Barracuda 10k, formed with EMS' patented SynTech, the world's only synthetic acid, dissolves nearly 15% more concrete than hydrochloric acid. Still, that potency comes with a triple zero HMIS score. This makes our concrete stripper safe on skin, safe for your equipment and safe to store anywhere you wish.

Barracuda 10k is so safe it is recommended by leaders in the industry including Mack, McNeilus, Oshkosh, London, Indiana Phoenix and others. It is safe on paint, chrome, wiring, plastic, aluminium and even glass.

Barracuda 10k contains no acid and is non-corrosive, meaning it can be applied to any equipment. It is so safe it can be left on overnight to loosen the heaviest build up. Ideal for cleaning forms, pavers, portable mixers, swimming pools, tools, windows, anywhere you find cement, gunite or mortar. Any cleaning that once required the use of dangerous, toxic acids can now be safely done with Barracuda 10k. It is entirely synthetic, so no neutralizing step is required. Simply rinse with water.

Barracuda 10k concrete stripper is non-regulated and is readily biodegradable per OECD 301D. Barracuda 10k is non-fuming and 100% OSHA safety compliant.

## Metal Studies

Dept. of Transportation (D.O.T.) Test Protocols as per Section 173.154 Exceptions for Class 8 (corrosive materials): The material being tested must be proven to be non-destructive or not to cause irreversible alterations in human skin tissue. Testing was conducted on an albino rabbit.

**Conclusion:** Barracuda 10k was proven to be NON-DESTRUCTIVE on human skin tissue.

**Metal Test Limits:** D.O.T. classifies a material to be corrosive if it has a corrosion rate that exceeds 6.25 mmpy on SAE C1020 carbon steel.

Results of Barracuda 10k: SAE 1020 carbon steel = 0.2203 mmpy **Conclusion:** Barracuda 10K is NON-CORROSIVE

Additional Studies & Results: When tested, Barracuda 10k showed no potential OSHA & ACGIH testing protocols governing workplace environments.
